REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

While German document number DC 3620964 A1 shows a roller device designed to equip the forks of a load handling device with a hollow rail, a counter rail with a plurality of roller elements attached thereto, and an actuator designed to cooperate with a block on a machine to raise and lower the rollers relative to the hollow rail, it does not have an actuating means which transforms a vertical force exerted by the block on the actuator to a horizontal force which displaces the rail in a horizontal translation so that a lifting means causes a simultaneous vertical displacement of the counter rail and the rollers as required by the independent claims.

Furthermore, while Thorndyke shows a roller device with a hollow rail and a counter rail that moves horizontally therein to cause simultaneous vertical displacement of the counter rail and the rollers, it does not have an actuating means that is designed to cooperate with a block on a machine to transform a vertical force exerted by the block on the actuator into a horizontal force exerted by the actuator on the at least one rail as required by the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A. Deuble whose telephone number is (571) 272-6912. The examiner can normally be reached on Monday through Friday except for alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene O. Crawford can be reached on (571) 272-6911. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
